Cássio Venâncio de Souza

ABOUT ME

Hello, my name is Cássio Venâncio de Souza, I'm 18 years old and I currently live in Major Gercino, my intention and goals when working at the company is to have the best possible professional experience, it would be a great opportunity to introduce myself to the market. My goal within the company is to increase my professional skills with clients in addition to offering and applying all the knowledge I have with technology. I have a little bit of experience at the moment with some projects created by myself, but I am extremely willing to learn whatever it takes to improve not only my skills, but also as a person. I am currently doing a bachelor's degree in Information Systems at UNIFEBE in Brusque and I would like to enter the market already related to the subject of technology, I am fully aware that there is still a lot to learn, but I want to achieve my professional goals as much as possible and for that I will be available to learn any skill that is necessary for my evolution. I have a fast learning curve and a lot of focus, in addition to reliability and honesty.
